SOFT SKILLS

- Confidence
- Open-mindedness
- Proactiveness
- Collaboration

PROFILE

I am a junior full-stack engineer driven by a passion for both exceptional design and problem-solving. I started studying Industrial Design Engineering when I realised software development included everything I was interested in.

After doing various online courses, I just loved programming and decided I wanted to work as a Software Developer. To quickly upskill, I enrolled in a Full Stack Web Development Bootcamp. Currently, I am engaged in building a range of applications while actively learning React.

My goal is to contribute to a dynamic and collaborative tech team, where I can continue to grow and thrive. I am excited to embark on the next chapter of my engineering journey.

SOFTWARE SKILLS

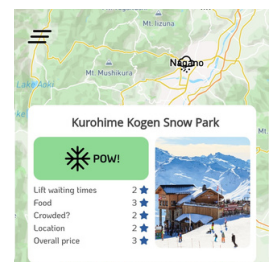

Ruby	JavaScript	Heroku	Google Workspace
Rails	CSS	Figma	Microsoft Office 365
SQL	HTML	GitHub	Visual Studio Code

PROJECTS

Snow Patrol

SnowPatrol is a web app where you can look for snow reports, submitted by users, of different ski resorts to find out which would be the best option for the day.

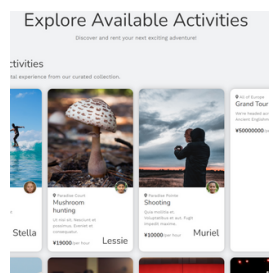

- My main tasks were geocoding and the map's and ski resorts' style.
- We used Rails, Ruby, HTML, CSS, JavaScript and Geocoding.

BuddyUp

BuddyUp is a marketplace where you are able to rent an activity with a new buddy

- My principal duties were the booking's and review's journey and the specific activity page's style.
- We used Rails, Ruby, HTML, CSS and JavaScript

LANGUAGES

English	Professional working proficiency
Spanish	Native
Romanian	Native
German	Elementary proficiency

WORK EXPERIENCE

Waitress

The Black Prince Pub & Grill | Melbourne

April 2023- July 2023

- Oversee up to 30 customers simultaneously, taking their orders, ensuring customer satisfaction and addressing their unique needs.
- Approach unexpected issues with agility and finding quick solutions.
- Handle a multitude of tasks simultaneously, including taking orders, delivering food and managing payments.
- Ensure precision in orders, payments, and service while carefully checking for accuracy.

Private Tutor

| Zaragoza, Spain

September 2020 - June 2022

- Show patience and empathy
- Adapt teaching methods to the kids' learning styles
- Assess their individual needs and adjust teaching accordingly
- Schedule and manage tutoring sessions and lesson plans
